Total			**$2,117.50**

One-time price.

2. PLAN OF ACTION: WHAT YOU GET

For: communitynewspapers.com

- [ ] **New Main Events page**
  Mini hero banner, an event videos section, an upcoming events section kept current from the event posts your team publishes, an event photo galleries section, and a Sponsor an Event button leading to the sponsor form. Evidence: screenshots of the page at five screen widths.
- [ ] **Sponsor an Event lead form**
  A form page reached from the Main Events page and the Events menu, with every submission delivered to your inbox (and into your CRM once it is switched on). Evidence: a test submission shown arriving in your inbox.
- [ ] **Events menu rebuilt**
  The menu reads Main Events, Event Videos, Events Photo Gallery, Promote Your Event and Sponsor An Event; the Event Videos page is set up to list the event videos; Promote Your Event leads to your existing event-submission form. Evidence: screenshots of every entry opened on desktop and phone.
- [ ] **Events video section filled with past event videos**
  Every event video already published on your site found, listed and filed into the Events video section. Evidence: the list handed over, with before and after counts.
- [ ] **Special Sections renamed to Special Editions**
  The label changed everywhere it appears: the Publications menu, the Advertise menu, the top bar and the page heading; the page address is kept as it is, so existing links and search results keep working. Evidence: before and after screenshots of each place.
- [ ] **Custom Publications Service menu entry and information-request form**
  Custom Publications Service added under Special Editions, with an information-request form delivered to your inbox (and into your CRM once it is switched on). Evidence: a test request shown arriving in your inbox.

The Special Editions rename is made after the planned update to that page's template has gone live, so the template update does not undo the new label.
